# Remote Gas Measurement Data Editing and Validation Services

**INTE' MEASUREMENT CONSULTING LLC**

## ABOUT US

We are a team of Seasoned Gas Measurement Subject Matter Experts  
Founded in 2020, our incredible team of Independent Gas Measurement analysts, Gas Measurement Technicians, Programmers, and Marketing experts have worked to become an extension to your Measurement Team.

## WHY CHOOSE US?

We have, and will continue to work diligently to bridge the gap due to the Shortage of Qualified Gas Measurement Analysts, providing big-picture insights that industry leaders not only approve of but also depend on.

## BUSINESS STRATEGY & ANALYSIS

*In effect, gas meters are the cash registers of the natural gas industry.*

### What's Equally Important

- Measurement
- Sampling and Analysis

The two components constitutes one-third of the total equation that determines the payments and receipts for gas that is transferred.

The importance of accurate measurement, sampling, and analysis can be demonstrated economically.

Let us help you with the shortage of hiring a Qualified Gas Measurement Analyst.

Do you need to fill a Gas Measurement Analyst position?

## OUR SERVICES

- Electronic Flow Meter (EFM) Data Editing
